Corporate Office Properties Trust and Subsidiaries
Notes to Consolidated Financial Statements

(unaudited)

Note 1 Organization

Corporate Office Properties Trust ("COPT") and subsidiaries (the "Company") is a fully integrated and self-managed real estate investment trust ("REIT"). We focus principally on the ownership, management, leasing, acquisition and development of suburban office properties located in select submarkets in the Mid-Atlantic region of the United States. COPT is qualified as a REIT as defined in the Internal Revenue Code and is the successor to a corporation organized in 1988. As of September 30, 2000, our portfolio included 81 office properties and one retail property.

We conduct almost all of our operations principally through our operating partnership, Corporate Office Properties, L.P. (the "Operating Partnership"), for which we are the managing general partner. The Operating Partnership owns real estate both directly and through subsidiary partnerships and limited liability companies ("LLCs"). The Operating Partnership also owns the principal economic interest and, collectively with our Chief Executive Officer and Chief Operating Officer, 49.5% of the voting stock of Corporate Office Management, Inc. ("COMI") (together with its subsidiaries defined as the "Service Companies"). A summary of our Operating Partnership's forms of ownership and the percentage of those ownership forms owned by COPT as of September 30, 2000 follows:

	% Owned by COPT

Common Units	66%
Series A Preferred Units	100%
Series B Preferred Units	100%
Series C Preferred Units	0%

Note 2 Basis of Presentation

These notes to our interim financial statements highlight significant changes to the notes to the financial statements included in our 1999 Form 10-K. As a result, these notes to our interim financial statements should be read together with the financial statements and notes thereto included in our 1999 Form 10-K. The interim financial statements on the previous pages reflect all adjustments which we believe are necessary for the fair presentation of our financial position and results of operations for the interim periods presented. These adjustments are of a normal recurring nature. The results of operations for such interim periods are not necessarily indicative of the results for a full year.

We use three different accounting methods to report our investments in entities: the consolidation method, the equity method and the cost method.

Consolidation Method

We use the consolidation method when we own most of the outstanding voting interests in an entity and can control its operations. This means the accounts of the entity are combined with our accounts. We eliminate balances and transactions between companies when we consolidate these accounts. Our

consolidated financial statements include the accounts of:

- o COPT,
- o the Operating Partnership and its subsidiary partnerships and LLCs, and
- o Corporate Office Properties Holdings, Inc. (we own 100%).

6

Equity Method

We use the equity method of accounting when we own an interest in an entity and can exert significant influence over the entity's operations but cannot control the entity's operations. Under the equity method, we report:

- o our ownership interest in the entity's capital as an investment on our Consolidated Balance Sheets and
- o our percentage share of the earnings or losses from the entity in our Consolidated Statements of Operations.

Cost Method

We use the cost method of accounting when we own an interest in an entity and cannot exert significant influence over the entity's operations. Under the cost method, we report:

- o the cost of our investment in the entity as an investment on our Consolidated Balance Sheets and
- o distributions to us of the entity's earnings in our Consolidated Statements of Operations.

Note 3 Summary of Significant Accounting Policies

Use of Estimates in the Preparation of Financial Statements

We make estimates and assumptions when preparing financial statements under generally accepted accounting principles. These estimates and assumptions affect various matters, including:

- o our reported amounts of assets and liabilities in our Consolidated Balance Sheets at the dates of the financial statements,
- o our disclosure of contingent assets and liabilities at the dates of the financial statements, and
- o our reported amounts of revenues and expenses in our Consolidated Statements of Operations during the reporting periods.

These estimates involve judgements with respect to, among other things, future economic factors that are difficult to predict and are often beyond management's control. As a result, actual amounts could differ from these estimates.

Minority Interests

As discussed previously, we consolidate the accounts of our Operating Partnership into our financial statements. However, we do not own 100% of the Operating Partnership. Our Operating Partnership also does not own 11% of one of its subsidiary partnerships. The amounts reported for minority interests on our Consolidated Balance Sheets represent the portion of these consolidated entities' equity that we do not own. The amounts reported for minority interests on our Consolidated Statements of Operations represent the portion of these consolidated entities' net income not allocated to us.

Common Units of the Operating Partnership ("Common Units") are substantially similar economically to our Common Shares of beneficial interest ("Common Shares"). Common Units are also exchangeable into our Common Shares, subject to certain conditions.

7

Our Operating Partnership issued 974,662 Series C Preferred Units in connection with a property acquisition in December 1999. Our Operating Partnership issued 42,000 additional Series C Preferred Units on July 1, 2000 in connection with the cancellation of ten-year detachable warrants exercisable for an additional number of Common Units. Owners of these units are entitled to a priority annual return equal to 9% of their liquidation preference through December 20, 2009, 10.5% for the five following years and 12% thereafter. These units are convertible, subject to certain restrictions, commencing December 21, 2000 into Common Units in the Operating Partnership on the basis of 2.381 Common Units for each Series C Preferred Unit, plus any accrued return. The Common Units would then be exchangeable for Common Shares, subject to certain conditions.

Our Operating Partnership issued 2,100,000 preferred units in connection with an October 1997 property acquisition (the "Initial Preferred Units"). These

units were converted into Common Units on the basis of 3.5714 Common Units for each Initial Preferred Unit in October 1999. Prior to converting these units, owners were entitled to a priority annual return equal to 6.5% of their liquidation preference.

Earnings Per Share ("EPS")

We present both basic and diluted EPS. We compute basic EPS by dividing income available to common shareholders by the weighted-average number of Common Shares outstanding during the period. Our computation of diluted EPS is similar except that:

- o the denominator is increased to include the weighted average number of potential additional Common Shares that would have been outstanding if securities that are convertible into our Common Shares were converted and
- o the numerator is adjusted to add back any convertible preferred dividends and any other changes in income or loss that would result from the assumed conversion into Common Shares.

Our computation of diluted EPS does not assume conversion of securities into our Common Shares if conversion of those securities would increase our diluted EPS in a given period. A summary of the numerator and denominator for purposes of our basic and diluted EPS calculations is as follows (dollars and shares in thousands):

<TABLE>

</TABLE>

Our diluted EPS computation for the three months ended September 30, 2000 only assumes conversion of share options because conversions of Preferred Units, Series A Preferred Shares of beneficial interest (the "Series A Preferred Shares") and Common Units would increase diluted EPS in that period. Our diluted EPS computation for the three months ended September 30, 1999 only assumes conversion of share options and

8

Initial Preferred Units because conversions of Series A Preferred Shares and Common Units would increase diluted EPS in that period.

Our diluted EPS computation for the nine months ended September 30, 2000 only assumes conversion of share options and Common Unit warrants because conversions of Preferred Units, Series A Preferred Shares and Common Units would increase diluted EPS in that period. Our diluted EPS computation for the nine months ended September 30, 1999 only assumes conversion of share options and Initial Preferred Units because conversions of Series A Preferred Shares and Common Units would increase diluted EPS in that period.

Reclassification

We reclassified certain amounts from prior periods to conform to the current period presentation of our consolidated financial statements. These

reclassifications did not affect consolidated net income or shareholders' equity.

Recent Accounting Pronouncements

In June 1998, the Financial Accounting Standards Board ("FASB") issued SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities." SFAS No. 133 and related amendments establish accounting and reporting standards for derivative financial instruments and for hedging activities. It requires that an entity recognize all derivatives as assets or liabilities in the balance sheet and measure those instruments at fair value. Changes in the fair value of derivatives are recorded each period in current earnings or other comprehensive income depending on whether a derivative is designated as part of a hedge transaction and, if it is, the type of hedge transaction. We plan to adopt these standards beginning January 1, 2001. As of September 30, 2000, we were evaluating the impact of the adoption of these standards on our financial position and results of operations.

Effective July 1, 2000, the FASB issued FIN No. 44, "Accounting for Certain Transactions Involving Stock Compensation." FIN No. 44 clarifies the application of the Accounting Principle Board's Opinion No. 25, "Accounting for Stock Issued to Employees" for certain issues, including the definition of the term "employee", the criteria for determining whether a plan qualifies as a noncompensatory plan, the accounting consequence of various modifications to previous issuances and the accounting for an exchange of stock compensation awards in a business compensation. We adopted FIN No. 44 effective July 1, 2000. The primary impact of our adoption of this Interpretation is that we and the Service Companies recognize additional expenses from share options issued to employees for the following:

- o the share price appreciation and future vesting relating to share options that were repriced in 1999, and
- o the issuance of share options to employees of CRM and MGK (all defined in Note 7).

Our adoption of this Interpretation resulted in a \$65 increase in general and administrative expenses and \$31 decrease in our equity in income of the Service Companies during the three months and nine months ended September 30, 2000.

2000 Acquisitions

We acquired a 74,513 square foot office building located in Hanover, Maryland for \$7,464 on April 18, 2000.

We also acquired the following properties during the nine months ended September 30, 2000:

- o a parcel of land located in Cranbury, New Jersey for \$633 on March 20, 2000,
- o a parcel of land located in Columbia, Maryland for \$4,036 on March 29, 2000,
- o a parcel of land located in Annapolis Junction, Maryland for \$3,022 on May 26, 2000,
- o a parcel of land located in Cranbury, New Jersey for \$283 on June 5,

- 2000,
- o a parcel of land located in Annapolis Junction, Maryland for \$364 on June 30, 2000, and
- o a parcel of land located in Columbia, Maryland for \$3,958 on September 28, 2000.

All of these land parcels are contiguous to certain of our existing operating properties.

2000 Construction/Development

During the nine months ended September 30, 2000, we completed the construction of three office buildings totaling 243,087 square feet. Two of these buildings totaling 185,807 square feet are located in the Baltimore/Washington Corridor with the balance located in Dayton, New Jersey.

As of September 30, 2000, we also had construction underway on five new buildings and development underway on three parcels of land.

2000 Disposition

We sold a 46,134 square foot retail property located in Minot, North Dakota for \$2,970 on June 19, 2000. We realized a gain of \$57 on the sale of this property, which was the last of our retail properties located in the Midwest region of the United States.

Note 5 Investments in and Advances to Unconsolidated Real Estate Joint Ventures

On September 28, 2000, we acquired an 80% interest in Gateway 67, LLC, a newly organized joint venture developing a parcel of land located in Columbia, Maryland. On September 29, 2000, we acquired a 10% interest in NBP 201, LLC, a newly organized joint venture constructing an 118,000 square foot office building on a parcel of land located in Annapolis Junction. We account for our investments in these joint ventures using the equity method of accounting. Our investments in and advances to these joint ventures at September 30, 2000 included the following:

Advances receivable	\$ 4,610
Equity investments	3,996

Total	\$ 8,606
	=====

Note 6 Accounts Receivable

Our accounts receivable are reported net of an allowance for bad debts of \$43 at September 30, 2000 and \$10 at December 31, 1999.

10

Note 7 Investment in and Advances to Other Unconsolidated Entities

We account for our investment in COMI and its subsidiaries, Corporate Realty Management, LLC ("CRM"), Corporate Development Services, LLC ("CDS") and Martin G. Knott and Associates, LLC ("MGK") using the equity method of accounting. Our investment in and advances to the Service Companies included the following:

	September 30, 2000	December 31, 1999
	-----	-----
Notes receivable	\$2,005	\$2,005
Equity investment	695	807
Advances receivable	835	849
	-----	-----
Total	\$3,535	\$3,661
	=====	=====

On July 18, 2000, COMI acquired the remaining 25% interest in CRM.

On August 3, 2000, we acquired a 2% interest in MediTract, LLC ("MediTract"), an entity engaged in the development of an Internet based contract imaging and management system. We account for our investment in MediTract using the cost method of accounting. Our investment in MediTract totaled \$539 at September 30, 2000. We are committed to invest an additional \$1,077 in MediTract prior to the end of 2000.

Note 9 Shareholders' Equity

On November 3, 1999, the Board of Trustees authorized a share repurchase program to buy up to 2,000,000 Common Shares in open market and privately negotiated purchases depending on market conditions and other factors. Shares repurchased under this program are summarized below.

Repurchase Date	Number of Shares	Cost of Repurchase
-----	-----	-----
3/31/00	6,600	\$ 52
4/5/00	20,000	166
6/5/00	140,000	1,197

On March 16, 2000, 877,545 Common Units in our Operating Partnership were converted to 877,545 Common Shares. On June 30, 2000, 170,000 Common Units in our Operating Partnership were converted to 170,000 Common Shares.

On September 28, 2000, Constellation Real Estate, Inc. ("Constellation") converted 984,307 of our Series A Preferred Shares into 1,845,378 Common Shares. Constellation owned 43.5% of our outstanding Common Shares at September 30, 2000.

11

During the nine months ended September 30, 2000, we issued 12,500 Common Shares subject to forfeiture restrictions to an officer. We also had forfeiture restrictions on 15,625 previously issued Common Shares lapse during the nine months ended September 30, 2000.

During the nine months ended September 30, 2000, we issued 21,667 Common Shares in connection with the exercise of share options.

Note 12 Information by Business Segment

We have five segments: Baltimore/Washington Corridor office, Greater Philadelphia office, Northern/Central New Jersey office, Greater Harrisburg office and retail. Our office properties represent our core-business. We manage our retail properties as a single segment since they are considered outside of our core-business.

The table below reports segment financial information. Our retail segment is not separately reported since it does not meet the reporting thresholds. We measure the performance of our segments based on total revenues less property operating expenses. Accordingly, we do not report other expenses by segment in the table below.

We did not allocate gain on sales of rental properties, interest expense, amortization of deferred financing costs and depreciation and other amortization to segments since they are not included in the measure of segment profit reviewed by management. We also did not allocate equity in (loss) income of Service Companies, general and administrative and minority interests since these items represent general corporate items not attributable to segments.

Note 13 Commitments and Contingencies

In the normal course of business, we are involved in legal actions arising from our ownership and administration of properties. In management's opinion, any liabilities that may result are not expected to have a materially adverse effect on our financial position, operations or liquidity. We are subject to various federal, state and local environmental regulations related to our property ownership and operation. We have performed environment assessments of our properties the results of which have not revealed any environmental liability that we believe would have a materially adverse effect on our financial position, operations or liquidity.

Note 14 Pro Forma Financial Information (Unaudited)

We accounted for our 1999 and 2000 acquisitions using the purchase method of accounting. We included the results of operations for the acquisitions in our Consolidated Statements of Operations from their respective purchase dates through September 30, 2000.

15

We prepared the pro forma condensed consolidated financial information presented below as if all of our 1999 and 2000 acquisitions and dispositions had occurred on January 1, 1999. Accordingly, we were required to make pro forma adjustments where deemed necessary. The pro forma financial information is unaudited and is not necessarily indicative of the results which actually would have occurred if these acquisitions had occurred on January 1, 1999, nor does it intend to represent our results of operations for future periods.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

In this section, we discuss our financial condition and results of operations for the three months and nine months ended September 30, 2000. This section includes discussions on:

- o why various components of our Consolidated Statements of Operations changed for the three and nine months ended September 30, 2000 compared to the same periods in 1999,
- o what our primary sources and uses of cash were in the nine months ended September 30, 2000,
- o how we raised cash for acquisitions and other capital expenditures during

- o the nine months ended September 30, 2000,
- o how we intend to generate cash for future capital expenditures, and
- o the computation of our funds from operations.

You should refer to our consolidated financial statements and accompanying notes and operating data variance analysis set forth below as you read this section.

This section contains "forward-looking" statements, as defined in the Private Securities Litigation Reform Act of 1995 that are based on our current expectations, estimates and projections about future events and financial trends affecting the financial condition of our business. Statements that are not historical facts, including statements about our beliefs and expectations, are forward-looking statements. These statements are not guarantees of future performance, events or results and involve potential risks and uncertainties. Accordingly, actual results may differ materially. We undertake no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise.

Important facts that may affect these expectations, estimates or projections include, but are not limited to: our ability to borrow on favorable terms; general economic and business conditions, which will, among other things, affect office property demand and rents, tenant creditworthiness and financing availability; interest rates; adverse changes in the real estate markets including, among other things, competition with other companies; risks of real estate acquisition and development; governmental actions and initiatives and environmental requirements.

18

Comparison of the three months ended September 30, 2000 and 1999

Our total revenues increased \$7.6 million or 37%, of which \$6.5 million was generated by rental revenue and \$1.1 million by tenant recoveries and other revenue. Included in this change is the following:

- o \$6.9 million increase attributable to 17 properties acquired and five newly-constructed properties placed in service since July 1, 1999.
- o \$733,000 increase attributable to 58 office properties owned throughout both reporting periods due mostly to increases in rental rates on renewed space, additional lease termination revenue and steady occupancy.
- o \$132,000 decrease attributable to properties sold since July 1, 1999.

Our total expenses increased \$6.9 million or 46% due to the effects of the increases in property operating, interest expense and amortization of deferred financing costs, depreciation and other amortization and general and administrative expenses described below.

Our property operating expenses increased \$2.0 million or 33%. Included in this change is the following:

- o \$1.9 million increase attributable to 17 properties acquired and five newly-constructed properties placed in service since July 1, 1999.
- o \$115,000 increase attributable to 58 office properties owned throughout both reporting periods.

Our interest expense and amortization of deferred financing costs increased \$3.0 million or 59% due to a 46% increase in our average outstanding debt balance resulting from our 1999 and 2000 acquisitions and construction activity and an increase in interest rates on our variable rate and refinanced debt. Our depreciation and other amortization expense increased \$1.2 million or 39%, \$1.1 million of which is attributable to 17 properties acquired and five newly-constructed properties placed in service since July 1, 1999. Our general and administrative expenses increased \$688,000 or 109% due mostly to our responsibility for an increased percentage of COMI's personnel and overhead related expenses in the current period.

As a result of the above factors, income before minority interests and extraordinary item increased by \$575,000 or 10%. The amounts reported for minority interests on our Consolidated Statements of Operations represent primarily the portion of the Operating Partnership's net income not allocated to us. Our income allocation to minority interests increased \$827,000 or 57% due to the increase in the Operating Partnership's net income combined with a higher percentage ownership by minority interests during the current period.

The factors discussed above combined with a \$109,000 increase in extraordinary losses collectively resulted in a \$361,000 decrease in net income. There was a \$279,000 decrease in Preferred Share dividends resulting mostly from the absence of dividends on the Series A Preferred Share converted into Common Shares in September 2000. As a result of all of the above, net income available to Common Shareholders decreased \$82,000 or 3%.

Comparison of the nine months ended September 30, 2000 and 1999

Our total revenues increased \$21.8 million or 37%, of which \$18.2 million was generated by rental revenue and \$3.6 million by tenant recoveries and other revenue. Included in this change is the following:

- o \$19.4 million increase attributable to 29 properties acquired and five newly-constructed properties placed in service since January 1, 1999.
- o \$2.7 million increase attributable to 46 office properties owned throughout both reporting periods due mostly to increases in rental rates on renewed space, additional lease termination revenue and steady occupancy.
- o \$885,000 decrease attributable to properties sold since January 1, 1999.

19

Our total expenses increased \$18.9 million or 43% due to the effects of the increases in property operating, interest expense and amortization of deferred financing costs, depreciation and other amortization and general and administrative expenses described below.

Our property operating expenses increased \$6.7 million or 40%. Included in this change is the following:

- o \$5.4 million increase attributable to 29 properties acquired and five newly-constructed properties placed in service since January 1, 1999.
- o \$1.2 million increase attributable to 46 office properties owned throughout both reporting periods, \$540,000 of which is due to increased snow removal costs.
- o \$152,000 decrease attributable to properties sold since January 1, 1999.

Our interest expense and amortization of deferred financing costs increased \$7.0 million or 44% due to a 41% increase in our average outstanding debt balance resulting from our 1999 and 2000 acquisitions and construction activity and an increase in interest rates on our variable rate and refinanced debt. Our depreciation and other amortization expense increased \$3.7 million or 42%, \$3.1 million of which is attributable to 29 properties acquired and five newly-constructed properties placed in service since January 1, 1999. Our general and administrative expenses increased \$1.5 million or 65% due mostly to our responsibility for an increased percentage of COMI's personnel and overhead related expenses in the current period.

Our income before minority interests and extraordinary item also includes a \$1.1 million decrease in our gain realized on the sales of rental properties.

As a result of the above factors, income before minority interests and extraordinary item increased by \$1.4 million or 9%. Our income allocation to minority interests increased \$2.2 million or 51% due to the increase in the Operating Partnership's net income combined with a higher percentage ownership by minority interests during the current period.

The factors discussed above combined with a \$687,000 decrease in extraordinary losses on early retirement of debt collectively resulted in a \$102,000 decrease in net income. There was a \$1.3 million increase in Preferred Share dividends resulting mostly from the Series B Preferred Share issuance in July 1999, offset somewhat by the absence of dividends on the Series A Preferred Shares converted into Common Shares in September 2000. As a result of all of the above, net income available to Common Shareholders decreased \$1.4 million or 15%.

20

Liquidity and Capital Resources

Capitalization and Liquidity

Cash provided from operations represented our primary source of liquidity to fund dividends and distributions, pay debt service and fund working capital requirements. We expect to continue to use cash provided by operations to meet our short-term capital needs, including all property expenses, general and administrative expenses, debt service, distribution requirements and recurring

capital improvements and leasing commissions. We do not anticipate borrowing to meet these requirements.

We historically have financed our property acquisitions using a combination of borrowings secured by our properties, proceeds from the sales of properties and the equity issuances of Common and Preferred Units in our Operating Partnership and Common and Preferred Shares. We use our secured revolving credit facility with Deutsche Banc Alex. Brown (the "Revolving Credit Facility") to finance much of our investing and financing activities. We pay down our Revolving Credit Facility using proceeds from long-term borrowings collateralized by our properties as attractive financing conditions arise and equity issuances as attractive equity market conditions arise. We also have a \$50.0 million line of credit with Prudential Securities Credit Corporation (the "Prudential Credit Facility"). Amounts available under the Revolving Credit Facility and the Prudential Credit Facility are generally computed based on 65% of the appraised value of properties pledged as collateral. As of November 3, 2000, the maximum amount available under our Revolving Credit Facility was \$99.4 million, of which \$8.1 was unused. As of November 3, 2000, the maximum amount available under the Prudential Credit Facility was \$21.6 million all of which was borrowed, with the proceeds being used primarily to refinance existing debt.

Our debt strategy favors long-term, fixed-rate, secured debt over variable-rate debt to minimize the risk of short-term increases in interest rates. As of September 30, 2000, 66% of our mortgage and other loans payable balance carried fixed interest rates.

As of November 3, 2000, we had \$8.4 million in mortgage and other loans payable maturing in 2000. We expect to meet our long-term capital needs through a combination of cash from operations, additional borrowings from existing credit facilities and new loans and additional equity issuances of Common Shares, Preferred Shares, Common Units and/or Preferred Units.

We are committed to investing an additional \$1.1 million in MediTract during 2000. We have no other material contractual obligations as of September 30, 2000 for property acquisitions or material capital costs other than the completion of construction and development projects that were underway and tenant improvements and leasing costs in the ordinary course of business.

22

Investing and financing activities for the nine months ended September 30, 2000:

During the nine months ended September 30, 2000, we acquired a 74,513 square foot operating property and six parcels of land for an aggregate acquisition cost of \$19.8 million. These acquisitions were financed by:

- o using \$10.8 million in proceeds under our Revolving Credit Facility,
- o assuming \$6.2 million in mortgage and other loans, and
- o using cash reserves for the balance.

During the nine months ended September 30, 2000, we completed the construction of three office buildings totaling 243,087 square feet. Costs incurred on these buildings through September 30, 2000 totaled \$30.6 million. We have \$19.3 million in construction loan facilities for two of these buildings of which \$12.9 million was borrowed through September 30, 2000. We borrowed \$6.5 million for the other building under a construction loan facility that was subsequently refinanced. The balance of the costs was funded primarily using proceeds from the Revolving Credit Facility and cash from operations.

As of September 30, 2000, we had construction activities underway on five new buildings totaling 441,000 square feet that were 38% pre-leased. Estimated costs upon completion for these projects total approximately \$70.9 million. We have construction loan facilities in place totaling \$34.6 million to finance the construction of three of these projects. Borrowings under these facilities totaled \$9.6 million at September 30, 2000 all of which was drawn upon during the nine months then ended. We also borrowed under the Revolving Credit Facility to finance these activities.

As of September 30, 2000, we also had development activities underway on three parcels of land.

During the nine months ended September 30, 2000, we invested \$8.6 million into two unconsolidated real estate joint ventures using \$3.5 million in proceeds under our Revolving Credit Facility and cash reserves for the balance.

During the nine months ended September 30, 2000, we sold a retail property located in Minot, North Dakota for \$3.0 million of which \$2.4 million was used to pay off a mortgage loan payable on the property. Net proceeds from this sale after mortgage loan repayment, transaction costs and operating revenue and expense pro-rations totaled \$513,000, all of which was applied to working capital.

During the nine months ended September 30, 2000, we received \$59.3 million in borrowings from mortgages and other loans payable other than our Revolving Credit Facility, the proceeds of which were used as follows:

- o \$24.1 million to repay other loans,
- o \$22.7 million to finance construction activities,
- o \$6.2 million to finance acquisitions, and
- o the balance applied to cash reserves.

Statement of Cash Flows

We generated net cash flow from operating activities of \$27.0 million for the nine months ended September 30, 2000, an increase of \$4.9 million from the nine months ended September 30, 1999. Our increase in cash flows from operating activities is due mostly to income generated from our newly acquired and newly constructed properties. Our net cash flow used in investing activities for the nine months ended September 30, 2000 decreased \$12.9 million from the nine months ended September 30, 1999 due mostly to a \$21.5 million decrease in cash outlays associated with purchases of and additions to commercial real estate properties and a \$28.6 million decrease in investments in and advances to real estate joint ventures offset by a \$29.4 million decrease in proceeds from rental property sales. Our net cash flow provided by financing activities for the nine months ended September 30, 2000 decreased \$15.6 million from the nine months ended September 30, 1999 due mostly to a \$75.2 million decrease in proceeds from mortgage and other loans payable and a \$29.5 million

decrease in proceeds from the issuance of Preferred Shares offset by a \$96.6 million decrease in repayments of mortgage and other loans payable.

Funds From Operations

We consider Funds from Operations ("FFO") to be meaningful to investors as a measure of the financial performance of an equity REIT when considered with the financial data presented under generally accepted accounting principles ("GAAP"). Under the National Association of Real Estate Investment Trusts' ("NAREIT") definition, FFO means net income (loss) computed using generally accepted accounting principles, excluding gains (or losses) from debt restructuring and sales of property, plus real estate-related depreciation and amortization and after adjustments for unconsolidated partnerships and joint

ventures. Further, if the conversion of securities into Common Shares is dilutive, we exclude any GAAP income allocated to these securities in computing FFO. The FFO we present may not be comparable to the FFO of other REITs since they may interpret the current NAREIT definition of FFO differently or they may not use the current NAREIT definition of FFO. FFO is not the same as cash generated from operating activities or net income determined in accordance with GAAP. FFO is not necessarily an indication of our cash flow available to fund cash needs. Additionally, it should not be used as an alternative to net income when evaluating our financial performance or to cash flow from operating, investing and financing when evaluating our liquidity or ability to make cash distributions or pay debt service. Our FFO for the three and nine months ended September 30, 2000 and 1999 are summarized in the following table:

(1) Preferred Units are not included in our computation of AFFO for the periods ended September 30, 2000.

Inflation

We have not been significantly impacted by inflation during the periods presented in this report. This is mostly because of the relatively low inflation rates in our markets. Most of our tenants are contractually

obligated to pay their share of operating expenses, thereby reducing exposure to increases in such costs resulting from inflation.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

We are exposed to certain market risks, the most predominant of which is changes in interest rates. Increases in interest rates can result in increased interest expense under our Revolving Credit Facility and our other loans payable carrying variable interest rate terms. Increases in interest rates can also result in increased interest expense when our loans payable carrying fixed interest rate terms mature and need to be refinanced.

The following table sets forth our long-term debt obligations, principal cash flows by scheduled maturity, weighted average interest rates and estimated fair market value ("FMV") at September 30, 2000 (dollars in thousands):

- (2) Includes \$8.8 million for a construction loan facility maturing that may be extended for a one-year period, subject to certain conditions.
- (3) Includes \$4.0 million for a construction loan facility maturing that may be extended for a two-year period, subject to certain conditions.
- (4) Includes \$6.6 million for a construction loan facility maturing that may be extended for a one-year period, subject to certain conditions.

On May 25, 2000, we entered into an interest rate cap agreement with Bear Stearns Capital Markets, Inc. This agreement caps our one-month LIBOR base at 7.7% per annum on a notional amount of \$50.0 million through May 31, 2002. The fair market value of this agreement as of September 30, 2000 was \$22,000.

On September 13, 2000, we entered into an interest rate cap agreement with Bear Stearns Capital Markets, Inc. This agreement caps our one-month LIBOR base at 7% per annum on a notional amount of \$50.0 million through October 12, 2001. The fair market value of this agreement as of September 30, 2000 was \$20,000.

Based on our variable rate debt balances during the nine months ended September 30, 2000, our interest expense would have increased \$1.0 million if interest rates were 1% higher.
