Item 2.02. Results of Operations and Financial Condition

In connection with its release of earnings on May 6, 2008, the Registrant is making available certain additional information pertaining to its properties and operations as of and for the period ended March 31, 2008. This information is furnished herewith as Exhibit 99.1 and is incorporated herein by reference.

The information included herein, including the exhibits, shall not be deemed "filed" for any purpose, including the purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), or subject to liabilities of that Section. The information included herein, including the exhibits, shall also not be deemed incorporated by reference into any filing under the Securities Act of 1933, as amended (the "Securities Act"), or the Exchange Act regardless of any general incorporation language in such filing.

The Registrant uses non-GAAP financial measures in earnings press releases and information furnished to the Securities and Exchange Commission. The Registrant believes that these measures are helpful to investors in measuring its performance and comparing such performance to other real estate investment trusts ("REITs"). Descriptions of these measures are set forth below.

Funds from operations ("FFO")

Funds from operations ("FFO") is defined as net income computed using GAAP, excluding gains (or losses) from sales of real estate, plus real estate-related depreciation and amortization after adjustments for unconsolidated partnerships and joint ventures. Gains from the sale of real estate that are attributable to sales of non-operating properties are included in FFO. Gains from sales of newly-developed properties less accumulated depreciation, if any, required under GAAP are also included in FFO on the basis that development services are the primary revenue generating activity; the Registrant believes that inclusion of these development gains is in accordance with the National Association of Real Estate Investment Trusts' ("NAREIT") definition of FFO, although others may interpret the definition differently.

Accounting for real estate assets using historical cost accounting under GAAP assumes that the value of real estate assets diminishes predictably over time. NAREIT stated in its April 2002 White Paper on Funds from Operations that "since real estate asset values have historically risen or fallen with market conditions, many industry investors have considered presentations of operating results for real estate companies that use historical cost accounting to be insufficient by themselves." As a result, the concept of FFO was created by NAREIT for the REIT industry to "address this problem." The Registrant agrees with the concept of FFO and believes that FFO is useful to management and investors as a supplemental measure of operating performance because, by excluding gains and losses related to sales of previously depreciated operating real estate properties and excluding real estate-related depreciation and amortization, FFO can help one compare the Registrant's operating performance between periods. In addition, since most equity REITs provide FFO information to the investment community, the Registrant believes that FFO is useful to investors as a supplemental measure for comparing its results to those of other equity REITs. The Registrant believes that net income is the most directly comparable GAAP measure to FFO.

Since FFO excludes certain items includable in net income, reliance on the measure has limitations; management compensates for these limitations by using the measure simply as a supplemental measure that is weighed in the balance with other GAAP and non-GAAP measures.

FFO is not necessarily an indication of the Registrant's cash flow available to fund cash needs. Additionally, it should not be used as an alternative to net income when evaluating the Registrant's financial performance or to cash flow from operating, investing and financing activities when evaluating the Registrant's liquidity or ability to make cash distributions or pay debt service. The FFO presented by the Registrant may not be comparable to the FFO presented by other REITs since they may interpret the current NAREIT definition of FFO differently or they may not use the current NAREIT definition of FFO.

Funds from operations-Basic ("Basic FFO")

Basic FFO is FFO adjusted to (1) subtract (a) preferred share dividends and (b) issuance costs associated with redeemed preferred shares and (2) add back GAAP net income allocated to common units in Corporate Office Properties, L.P. (the "Operating Partnership") not owned by the Registrant. With these adjustments, Basic FFO represents FFO available to common shareholders and common unitholders. Common units in the Operating Partnership are substantially similar to common shares of beneficial interest in the Registrant ("common shares"); common units in the Operating Partnership are also exchangeable into common shares, subject to certain conditions. The Registrant believes that Basic FFO is useful to investors due to the close correlation of common units to common shares. The Registrant believes that net income is the most directly comparable GAAP measure to Basic FFO. Basic FFO has essentially the same limitations as FFO; management compensates for these limitations in essentially the same manner as described above for FFO.

FFO per diluted share ("Diluted FFO per share")

Diluted FFO per share is (1) Basic FFO adjusted to add back any convertible preferred share dividends and any other changes in Basic FFO that would result from the assumed conversion of securities that are convertible or exchangeable into common shares divided by (2) the sum of the (a) weighted average common shares outstanding during a period, (b) weighted average common units outstanding during a period and (c) weighted average number of potential additional common shares that would have been outstanding during a period if other securities that are convertible or exchangeable into common shares were converted or exchanged. However, the computation of Diluted FFO per share does not assume conversion of securities that are convertible into common shares if the conversion of those securities would increase Diluted FFO per share in a given period. The Registrant believes that Diluted FFO per share is useful to investors because it provides investors with a further context for evaluating its FFO results in the same manner that investors use earnings per share in evaluating net income available to common shareholders. In addition, since most equity REITs provide Diluted FFO per share information to the investment community, the Registrant believes Diluted FFO per share is a useful supplemental measure for comparing the Registrant to other equity REITs. The Registrant believes that diluted EPS is the most directly comparable GAAP measure to Diluted FFO per share. Diluted FFO per share has most of the same limitations as Diluted FFO (described below); management compensates for these limitations in essentially the same manner as described below for Diluted FFO.

Funds from operations-diluted ("Diluted FFO")

Diluted FFO is Basic FFO adjusted to add back any convertible preferred share dividends and any other changes in Basic FFO that would result from the assumed conversion of securities that are convertible or exchangeable into common shares. However, the computation of Diluted FFO does not assume conversion of securities that are convertible into common shares if the conversion of those securities would increase Diluted FFO per share in a given period. The Registrant believes that Diluted FFO is useful to investors because it is the numerator used to compute Diluted FFO per share. In addition, since most equity REITs provide Diluted FFO

3

information to the investment community, the Registrant believes Diluted FFO is a useful supplemental measure for comparing the Registrant to other equity REITs. The Registrant believes that the numerator to diluted EPS is the most directly comparable GAAP measure to Diluted FFO. Since Diluted FFO excludes certain items includable in the numerator to diluted EPS, reliance on the measure has limitations; management compensates for these limitations by using the measure simply as a supplemental measure that is weighed in the balance with other GAAP and non-GAAP measures. Diluted FFO is not necessarily an indication of the Registrant's cash flow available to fund cash needs. Additionally, it should not be used as an alternative to net income when evaluating the Registrant's financial performance or to cash flow from operating, investing and financing activities when evaluating the Registrant's liquidity or ability to make cash distributions or pay debt service. The Diluted FFO presented by the Registrant may not be comparable to the Diluted FFO presented by other REITs.

Adjusted funds from operations-diluted ("Diluted AFFO")

Diluted AFFO is Diluted FFO adjusted for the following: (1) the elimination of the effect of (a) noncash rental revenues (comprised of straight-line rental adjustments, which includes the amortization of recurring tenant incentives, and amortization of deferred market rental revenue, both of which are described under "Cash NOI" below) and (b) accounting charges for original issuance costs associated with redeemed preferred shares; and (2) recurring capital expenditures (defined below). The Registrant believes that Diluted AFFO is an important supplemental measure of liquidity for an equity REIT because it provides management and investors with an indication of its ability to incur and service debt and to fund dividends and other cash needs. In addition, since most equity REITs provide Diluted AFFO information to the investment community, the Registrant believes that Diluted AFFO is a useful supplemental measure for comparing the Registrant to other equity REITs. The Registrant believes that the numerator to diluted EPS is the most directly comparable GAAP measure to Diluted AFFO. Since Diluted AFFO excludes certain items includable in the numerator to diluted EPS, reliance on the measure has limitations; management compensates for these limitations by using the measure simply as a supplemental measure that is weighed in the balance with other GAAP and non-GAAP measures. In addition, see the discussion below regarding the limitations of recurring capital expenditures, which is used to derive Diluted AFFO. Diluted AFFO is not necessarily an indication of the Registrant's cash flow available to fund cash needs. Additionally, it should not be used as an alternative to net income when evaluating the Registrant's financial performance or to cash flow from operating, investing and financing activities when evaluating the Registrant's liquidity or ability to make cash distributions or pay debt service. The Diluted AFFO presented by the Registrant may not be comparable to similar measures presented by other equity REITs

Recurring capital expenditures

Recurring capital expenditures are defined as capital expenditures, tenant improvements and incentives and leasing costs associated with operating properties that are not (1) items contemplated prior to the acquisition of a property, (2) improvements associated with the expansion of a building or its improvements, (3) renovations to a building which change the underlying classification of the building (for example, from industrial to office or Class C office to Class B office) or (4) capital improvements that represent the addition of something new to the property rather than the replacement of something (for example, the addition of a new heating and air conditioning unit that is not replacing one that was previously there). The Registrant believes that recurring capital expenditures is an important measure of performance for a REIT because it provides a measure of the capital expenditures that the Registrant can expect to incur on an ongoing basis, which is significant to how the Registrant manages its business since these expenditures are funded using cash flow from operations. As a result, the measure provides a further indication of the cash flow from operations that is available to fund other uses. The

4

Registrant believes that tenant improvements and incentives, capital improvements and leasing costs associated with operating properties are the most directly comparable GAAP measures. Recurring capital expenditures do not reflect all capital expenditures incurred by the Registrant for the periods reported; the Registrant compensates for this limitation by also using the comparable GAAP measure. The recurring capital expenditures presented by the Registrant may not be comparable to the recurring capital expenditures presented by other REITs.

Combined real estate revenue

Combined real estate revenue is total revenue from real estate operations, including rental revenue and tenant recoveries and other revenue, including discontinued operations. The Registrant uses this measure to evaluate the revenue produced by its real estate properties, including those reported in discontinued operations. The Registrant believes that total revenue is the most directly comparable GAAP measure to combined real estate revenue. Combined real estate revenue excludes other types of revenue earned by the Registrant, including construction contract and other service operations revenues. The measure also includes discontinued operations and, by doing so, does not reflect the overall operating performance of the Registrant's continuing operations. Management compensates for these limitations by evaluating this measure in conjunction with the most directly comparable GAAP measure and other operating statistics involving revenue.

Combined net operating income ("Combined NOI")

Combined NOI is combined real estate revenue reduced by total property expenses associated with real estate operations, including discontinued operations; total property expenses, as used in this definition, do not include depreciation, amortization or interest expense associated with real estate operations. The Registrant believes that Combined NOI is an important supplemental measure of operating performance for a REIT's operating real estate because it provides a measure of the core real estate operations, rather than factoring in depreciation and amortization or corporate financing and general and administrative expenses; this measure is particularly useful in the opinion of the Registrant in evaluating the performance of geographic segments, same-office property groupings and individual properties. The Registrant believes that net income is the most directly comparable GAAP measure to Combined NOI. The measure excludes many items that are includable in net income; management compensates for this limitation by using the measure simply as a supplemental measure that is weighed in the balance with other GAAP and non-GAAP measures. It should not be used as an alternative to net income when evaluating the Registrant's financial performance or to cash flow from operating, investing and financing activities when evaluating the Registrant's liquidity or ability to make cash distributions or pay debt service. Combined NOI presented by the Registrant may not be comparable to Combined NOI presented by other equity REITs that define the measure differently.

Cash net operating income ("Cash NOI")

Cash NOI is Combined NOI (defined above) adjusted to eliminate the effects of noncash rental revenues (comprised of straight-line rental adjustments, which includes the amortization of recurring tenant incentives, and amortization of deferred market rental revenue). Under GAAP, rental revenue is recognized evenly over the term of tenant leases. Many leases provide for contractual rent increases and the effect of accounting under GAAP for such leases is to accelerate the recognition of lease revenue. Since some leases provide for periods under the lease in which rental concessions are provided to tenants, the effect of accounting under GAAP is to allocate rental revenue to such periods. Also under GAAP, when a property is acquired, in-place operating leases carrying rents above or below market are valued as of the date of the acquisition; such value is then amortized into rental revenue over the lives of the related leases.

5

The Registrant believes that Cash NOI is an important supplemental measure of operating performance for a REIT's operating real estate because it makes adjustments to Combined NOI for revenue that is not associated with cash to the Registrant. As is the case with Combined NOI, the measure is useful in the opinion of the Registrant in evaluating and comparing the performance of geographic segments, same-office property groupings and individual properties, although, since it adjusts for noncash items, it provides management and investors with a further indication of the Registrant's ability to incur and service debt and to fund dividends and other cash needs. The Registrant believes that net income is the most directly comparable GAAP measure to Cash NOI. The measure excludes many items that are includable in net income; management compensates for this limitation by using the measure simply as a supplemental measure that is weighed in the balance with other GAAP and non-GAAP measures. It should not be used as an alternative to net income when evaluating the Registrant's financial performance or to cash flow from operating, investing and financing activities when evaluating the Registrant's liquidity or ability to make cash distributions or pay debt service. The Cash NOI that the Registrant presents may not be comparable to similar measures presented by other equity REITs.

Cash NOI adjusted for lease termination fees

This measure is Cash NOI (defined above) adjusted to eliminate the effects of lease termination fees paid by tenants to terminate their lease obligations prior to the end of the agreed lease terms. Lease termination fees are often recognized as revenue in large one-time lump sum amounts upon the termination of tenant leases. The Registrant believes that Cash NOI adjusted for lease termination fees is a useful supplemental measure of operating performance in evaluating same-office property groupings because it provides a means of evaluating the effect that lease terminations had on the performance of the property groupings. As in the case of Cash NOI, since the measure adjusts for noncash items, it also provides management and investors with a further indication of the Registrant's ability to incur and service debt and to fund dividends and other cash needs. The Registrant believes that net income is the most directly comparable GAAP measure to Cash NOI adjusted for termination fees. The measure has essentially the same limitations as Cash NOI as well as the further limitation of not reflecting the effect of lease termination fees in accordance with GAAP. Management compensates for these limitations by using the measure simply as a supplemental measure that is weighed in the balance with other GAAP and non-GAAP measures.

Earnings Before Interest, Income Taxes, Depreciation and Amortization ("EBITDA")

EBITDA is net income adjusted for the effects of interest expense, depreciation and amortization, income taxes and minority interests. The Registrant believes that EBITDA is an important measure of performance for a REIT because it provides a further tool to evaluate the Registrant's ability to incur and service debt and to fund dividends and other cash needs that supplements the previously described non-GAAP measures and to compare the Registrant's operating performance with that of other companies. The Registrant believes that net income is the most directly comparable GAAP measure to EBITDA. EBITDA excludes items that are included in net income, including some that require cash outlays; management compensates for this limitation by using the measure simply as a supplemental measure that is weighed in the balance with other GAAP and non-GAAP measures. It should not be used as an alternative to net income when evaluating the Registrant's financial performance or to cash flow from operating, investing and financing activities when evaluating the Registrant's liquidity or ability to make cash distributions or pay debt service. Additionally, EBITDA as reported by the Registrant may not be comparable to EBITDA reported by other equity REITs.

6

Interest Coverage Ratio-Combined NOI and Interest Coverage Ratio-EBITDA

These measures divide either combined NOI or EBITDA by interest expense on continuing and discontinued operations. The Registrant believes that these ratios are useful measures in evaluating the relationship of earnings to the total cash flow requirements for interest on loans associated with operating properties and, as such, are important tools in the Registrant's finance policy management.

Debt Service Coverage Ratio-Combined NOI and Debt Service Coverage Ratio-EBITDA

These measures divide either combined NOI or EBITDA by the sum of interest expense on continuing and discontinued operations and scheduled principal amortization on mortgage loans for continuing and discontinued operations. The Registrant believes that these ratios are useful measures in evaluating the relationship of earnings to the total cash flow requirements of loans associated with operating properties and, as such, are important tools in the Registrant's finance policy management.

Fixed Charge Coverage Ratio-Combined NOI and Fixed Charge Coverage Ratio-EBITDA

These measures divide either combined NOI or EBITDA by the sum of (1) interest expense on continuing and discontinued operations, (2) dividends on preferred shares and (3) distributions on preferred units in the Operating Partnership not owned by the Registrant. The Registrant believes that these ratios are useful measures in evaluating the relationship of earnings to the cash flow requirements of (1) interest expense on loans associated with operating properties and (2) dividends to preferred equity holders and, as such, are important tools in the Registrant's finance policy management.

These measures divide either Combined NOI or EBITDA by total real estate revenues from continuing and discontinued operations. The Registrant believes that net income divided by combined real estate revenue is the most directly comparable GAAP measure to these two measures.

General and Administrative Expenses as a Percentage of Combined Real Estate Revenue or EBITDA

These measures divide general and administrative expenses by either Combined Real Estate Revenue or EBITDA. The Registrant believes that general and administrative expenses divided by net income is the most directly comparable GAAP measure.

Recurring Capital Expenditures as a Percentage of Combined NOI

This measure divides recurring capital expenditures by NOI.

FFO Diluted Payout Ratio and AFFO Diluted Payout Ratio

These measures are defined as (1) the sum of (A) dividends on common shares and (B) dividends on common and convertible preferred shares and distributions to holders of interests in the Operating Partnership when such dividends and distributions are included in Diluted FFO and Diluted AFFO divided by (2) either Diluted FFO or Diluted AFFO. The Registrant believes that these ratios are useful to investors as supplemental measures of its ability to make distributions to investors. In addition, since most equity REITs provide these ratios, the Registrant believes they are useful supplemental measures for comparing the Registrant to other equity REITs. The Registrant believes that Earnings Payout Ratio is the most comparable GAAP measure. Earnings Payout Ratio is defined as dividends on common shares divided by net income available to common shareholders. Since FFO Diluted Payout Ratio and AFFO Diluted Payout Ratio are derived from Diluted FFO and Diluted AFFO, they share the limitations previously discussed for

7

those measures; management compensates for these limitations by using the measures simply as supplemental measures that are weighed in the balance with other GAAP and non-GAAP measures.

Dividend Coverage-FFO Diluted and Dividend Coverage-AFFO Diluted

These measures divide either Diluted FFO or Diluted AFFO by the sum of (1) dividends on common shares and (2) dividends on common and convertible preferred shares and distributions to holders of interests in the Operating Partnership when such dividends and distributions are included in Diluted AFFO.

Debt to Undepreciated Book Value of Real Estate Assets

This measure is defined as mortgage loans payable divided by net investment in real estate presented on the Registrant's consolidated balance sheet excluding the effect of accumulated depreciation incurred to date on such real estate. The Registrant believes that the measure of Debt to Undepreciated Real Estate Assets is useful to management and investors as a supplemental measure of its borrowing levels. In addition, since most equity REITs provide Debt to Undepreciated Real Estate Asset information, the Registrant believes Debt to Undepreciated Real Estate Assets is a useful supplemental measure for comparing the Registrant to other equity REITs. The Registrant believes that the measure of Debt to Total Assets, defined as mortgage loans payable divided by total assets, is the most comparable GAAP measure. Debt to Undepreciated Real Estate Assets excludes the effect of accumulated depreciation, other assets and other liabilities; management compensates for these limitations by using the measure simply as a supplemental measure that is weighed with the comparable GAAP measure and other GAAP and non-GAAP measures.

To Members of the Investment Community:

We prepared this supplemental information package to provide you with additional detail on our properties and operations. The information in this package is unaudited, furnished to the Securities and Exchange Commission ("SEC") and should be read in conjunction with our quarterly and annual reports. If you have any questions or comments, please contact Ms. Mary Ellen Fowler, Vice President and Treasurer at (443) 285-5450 or maryellen.fowler@copt.com. Reconciliations between GAAP and non GAAP measurements have been provided on page 36. Refer to our Form 8-K for definitions of certain terms used herein.

Corporate Office Properties Trust (COPT) (NYSE: OFC) is a specialty office real estate investment trust (REIT) that focuses on strategic customer relationships and specialized tenant requirements in the U.S. Government, Defense Information Technology and Data sectors. The Company acquires, develops, manages and leases properties which are typically concentrated in large office parks primarily located adjacent to government demand drivers and/or in growth corridors. The Company's portfolio primarily consists of technically sophisticated buildings in visually appealing settings that are environmentally sensitive, sustainable and meet unique customer requirements. More information on COPT can be found at www.copt.com.

Financial Results

- Reported FFO diluted of \$32,373,000 or \$.58 per share/unit, for the first quarter of 2008 as compared to \$28,288,000, or \$.51 per share/unit, for the comparable 2007 period, representing an increase of 13.7% per share/unit.
- Reported Net Income Available to Common Shareholders of \$7,370,000, or \$.15 per diluted share, for the first quarter of 2008 as compared to \$1,554,000, or \$.03 per diluted share, for the comparable 2007 period. Our first quarter 2008 net income contains \$1.9 million, or \$.04 per share, of gain on sales of real estate, net of income taxes and minority interests.
- Reported AFFO diluted of \$24,490,000 for the first quarter of 2008 as compared to \$22,065,000 for the comparable 2007 period, representing an increase of 11.0%.
- · Our FFO payout ratio was 58.5% for the first quarter of 2008 as compared to 60.4% for the comparable 2007 period. Our AFFO payout ratio was 77.4% for both the first quarters of 2008 and 2007.

Dispositions

- On January 31, 2008, we sold a 142,385 square foot operating property located in Central New Jersey for \$17.0 million and realized a \$1.4 million gain. On April 1, 2008, we sold a 41,398 square foot property for \$3.2 million, reducing our Central New Jersey portfolio to only two properties totaling 201,200 square feet.
- · On March 31, 2008, the Maryland State Highway Administration deposited approximately \$654,000 of condemnation proceeds into an account on our behalf, primarily for the transfer of White Marsh land that will facilitate the expansion of Interstate 95. We recognized a gain of \$293,000 associated with these condemnation proceeds during this quarter.

Development / Joint Ventures

During the first quarter of 2008, we sold 53,417 square feet of flex/warehouse condominiums for \$8.4 million, held through our 92.5% joint venture interest in 13849 Park Center Road, LLC, and realized an after-tax gain of \$768,000 (or \$554,000, net of minority interests).

1

- On January 29, 2008, we completed the formation of M Square Associates, LLC, a joint venture in which we hold a 45% economic interest, and affiliates of the University of Maryland and Manekin LLC hold a combined 55% economic interest. This joint venture will ground lease, develop and manage office properties, approved for up to approximately 750,000 square feet, located in M Square Research Park in College Park, Maryland. This joint venture constructed a 116,107 square foot property located at 5825 University Research Court, within M Square Research Park, and has pre-leased 35.74% or 41,500 square feet.
- During the first quarter, we placed into service 202,161 square feet in three properties. Two of these properties contained an aggregate of 89,497 square feet placed into service in the second and third quarters of 2007. This total space, consisting of 291,658 square feet, was 74.85% leased as of March 31, 2008.

Operations

- Our wholly owned portfolio was 92.89% occupied and 94.07% leased, as of March 31, 2008. Our entire portfolio was 92.75% occupied and 93.89% leased, as of March 31, 2008.
- Our same office property cash NOI, excluding the effect of a \$1.1 million reduction in lease termination fees, for the quarter ended March 31, 2008 increased by 5.0%, or \$2.5 million, as compared to the quarter ended March 31, 2007. Including the effect of lower lease termination fees, our same office property NOI increased 2.8%, or \$1.4 million, as compared to the quarter ended March 31, 2007. Our same office portfolio consists of 164 properties and represents 82.5% of our wholly owned portfolio as of March 31, 2008.
- · Weighted average lease term of our wholly owned portfolio is 4.8 years, as of March 31, 2008 with an average contractual rental rate (including tenant reimbursements of operating costs) of \$21.87 per square foot.
- We renewed 587,924 square feet, or 83.2%, of our expiring office leases (based upon square footage) with an average committed cost of \$3.77 per square foot during the first quarter. For our renewed space only, we realized an increase in total rent of 12.3%, as measured from the GAAP straight-line rent in effect preceding the renewal date, and an increase of 6.4% in total cash rent. For our renewed and retenanted space of 719,436 square feet, we realized an increase in total rent of 9.9%, as measured from the GAAP straight-line rent in effect preceding the renewal date, and an increase of 3.9% in total cash rent. We incurred an average committed cost of \$6.48 per square foot for our renewed and retenanted space in the first quarter.
- We recognized \$56,000 in lease termination fees, net of write-offs of related straight-line rents and accretion of intangible assets and liabilities (i.e., SFAS 141 revenues) in the quarter ended March 31, 2008, as compared to \$1.7 million in the quarter ended March 31, 2007.

Financing Activity and Capital Transactions

As of March 31, 2008, our ratio of debt to market capitalization was 46.8%, and our ratio of debt to undepreciated book value of real estate assets was 61.1%. We achieved an EBITDA interest coverage ratio of 2.96x and an EBITDA fixed charge coverage ratio of 2.45x for this quarter.

Subsequent Events

- On May 2, 2008, we closed a \$225 million construction loan facility, requiring interest only payments based upon a pricing grid, depending upon our leverage ratio, which was initially priced at LIBOR plus 160 basis points. This recourse construction facility will provide financing capacity for our development pipeline and will mature in May 2011, subject to a one-year extension option. We initially borrowed \$35.4 million which was used to repay borrowings under our Revolver.
- · In April 2008, we executed three long term leases for 114,191 square feet in three properties under construction, improving our pre-leased percentage to 26.4%.

Forward-Looking Statements

identified by the use of words such as "may," "will," "should," "expect," "estimate" or other comparable terminology. Forward-looking statements are inherently subject to risks and uncertainties, many of which we cannot predict with accuracy and some of which we might not even anticipate. Accordingly, we can give no assurance that these expectations, estimates and projections will be achieved. Future events and actual results may differ materially from those discussed in the forward-looking statements.

Important factors that may affect these expectations, estimates, and projections include, but are not limited to:

- · our ability to borrow on favorable terms;
- · general economic and business conditions, which will, among other things, affect office property demand and rents, tenant creditworthiness, interest rates and financing availability;
- · adverse changes in the real estate markets including, among other things, increased competition with other companies;
- risk of real estate acquisition and development, including, among other things, risks that development projects may not be completed on schedule, that tenants may not take occupancy or pay rent or that development or operating costs may be greater than anticipated;
- · risks of investing through joint venture structures, including risks that our joint venture partners may not fulfill their financial obligations as investors or may take actions that are inconsistent with our objectives;
- our ability to satisfy and operate effectively under federal income tax rules relating to real estate investment trusts and partnerships;
- · governmental actions and initiatives; and
- · environmental requirements.

We undertake no obligation to update or supplement any forward-looking statements. For further information, please refer to our filings with the Securities and Exchange Commission, particularly the section entitled "Risk Factors" in Item 1 of our Annual Report on Form 10-K for the year ended December 31, 2007.

| Net premium to adjust to fair value of debt | 579 |
|---|--------------|
| Mortgage and Other Loans Payable | \$ 1,645,968 |
| | |
| Exchangeable Senior Notes (6) | \$ 200,000 |
| Total Debt | \$ 1,845,968 |
| | |

Notes:

- (1) Certain mortgages contain extension options, generally either for a period of six months or one year, subject to certain conditions. The maturity dates presented above in the table assume that the extension options have not been exercised.
- (2) For the variable rate loans expiring in 2008, the interest rate used for this calculation was the rate at March 31, 2008.
- (3) Subsequent to March 31, 2008, we repaid \$41.5 million of non-recourse debt scheduled to mature in the second quarter of 2008.
- (4) Our \$9.1 million non-recourse loan that matures in September 2025 will be called in October 2010. The above table includes the \$8.5 million amount due on maturity in 2010.
- (5) We assumed that our \$4.8 million non-recourse loan that matures in March 2034 may be prepaid in the three-month period ending March 2014 without penalty. The above table includes the \$4.3 million amount due on maturity in 2014.
- (6) Exchangeable Senior Notes mature in September 2026 but are subject to a put by the holders in September 2011 and every five years thereafter.

⁽²⁾ Total Annualized Rental Revenue is the monthly contractual base rent as of March 31, 2008, multiplied by 12, plus the estimated annualized expense reimbursements under existing office leases.

⁽³⁾ Order of tenants is based on Annualized Rent.

⁽⁴⁾ The weighting of the lease term was computed using Total Rental Revenue.

⁽⁵⁾ Many of our government leases are subject to early termination provisions which are customary to government leases. The weighted average remaining lease term was computed assuming no exercise of such early termination rights.

⁽⁶⁾ Includes affiliated organizations or agencies.

⁽⁷⁾ Merck & Co., Inc. subleases 219,065 rentable square feet from Unisys' 960,349 leased rentable square feet in our Greater Philadelphia region.

NOTE: As of March 31, 2008, the weighted average lease term for the wholly owned properties is 4.8 years.

- (1) Many of our government leases are subject to certain early termination provisions which are customary to government leases. The year of lease expiration was computed assuming no exercise of such early termination rights.
- (2) Total Annualized Rental Revenue is the monthly contractual base rent as of March 31, 2008 multiplied by 12 plus the estimated annualized expense reimbursements under existing office leases.
- (3) Other consists primarily of amenities, including cafeterias, concierge offices and property management space. In addition, month-to-month leases and leases which have expired but the tenant remains in holdover are included in this line as the exact expiration date is unknown.

⁽¹⁾ These two development properties have not yet been leased but are considered committed based upon the prospective tenant and their proximity to two existing operating properties. Excluding the commitment on these two development projects, the overall leased percentage would be 17.85%.

Anticipated Operational Date: Date in which the earlier of one year following substantial completion or 100% occupancy has been achieved.

⁽²⁾ A portion of this property's leasing occurred after March 31, 2008.

Demand Driver Categories (as classified by COPT management):
Defense Information Technology: Development opportunity created through our current and future relationships with defense information technology contractors and, possibly, minor Government tenancy.
Government: Development opportunity created through our existing and future relationship with various agencies of the government of the United States of America. Excludes Government tenancy included in Defense Information Technology.
Market Demand: Development opportunity created through perceived unfulfilled space requirements within a specific submarket; potential submarket demand exceeds existing supply.
Research Park: Development opportunity created through specific research park relationship.

|--|--|-----------|----------------|--------------------|--|---------------------|---|
| Greater Harrisburg Portfolio | | | | | | | |
| Harrisburg and Mechanicsburg, Pennsylvania | 20.0% | Operating | 671,759 | \$ (4,215) | \$ 66,600 | No | No |

Total assets includes any outside investment basis related to the applicable joint venture plus the total assets recorded on the books of the consolidated joint venture.
 The 7468 Candlewood Road project is currently being redeveloped into approximately 356,000 rentable square feet of warehouse/flex space.
 In the first quarter of 2008, 53,575 square feet were sold, and we realized a \$554,000 gain, net of income taxes and minority interests.
 Of this joint venture entity, one building totaling 151,800 square feet is currently under construction.
